

Governor's Commission for a Drug Free Indiana

A Division of the

Comprehensive Community Plan

County: Bartholomew

LCC: Bartholomew County Substance Abuse Council

Date: June 2006

Contact: Kimberly D. Maus

Address: 507 Third Street

City: Columbus

Zip Code: 47201

Phone: (812) 379-1640

Email: kimm@bartholomewco.com

County Commissioners:

Larry Kleinhenz

Address: 440 Third Street, Suite 101

City: Columbus

Zip Code: 47201

Plan Summary

Mission Statement:

To develop and implement a comprehensive strategy to educate about, to prevent, and to reduce the incidents of alcohol and other drug abuse in Bartholomew County.

History:

In January 1988, a community human needs assessment identified drug and alcohol abuse as a top issue. That same year, Focus 2000 adopted substance abuse as an area of focus, created a task force, and invited regional representatives from the Governor's Commission for a Drug-Free Indiana who described the need for communities to consider writing a comprehensive plan.

The Bartholomew County Substance Abuse Council was formed in 1990 with the mission of coordinating a comprehensive approach to substance abuse in the county. Since its formation, the council has met 9 or more times per year to address community issues, to develop a data pool, to identify community resources, and to solicit community involvement in the areas of prevention, treatment, and law enforcement/justice. The Council serves as the recognized Local Coordinating Council (LCC) for the Governor's Commission for a Drug-Free Indiana.

From the beginning, the Council has attempted to bring together a cross-section of the community in a countywide effort to address our substance abuse issues. Bartholomew County has a population of about 72,341, with 53.8% of the population the same in 2000 as it was in 1995. The economy is commercial, industrial, and agriculture-related. We have two school corporations with 24.2% of our students on free lunch. In 2000, 8.8% of our families were below poverty as compared to the state average of 6.7%. The county's diversity in race and ethnicity can be seen in the Indiana Youth Institute's "Children by Race, Ethnicity, and Sex: 2002" data that summarizes the 20,621 Bartholomew County youth (ages 0-19) as follows: 91% White, 3% Hispanic (of any race), 2.3% Black, 2% Asian, and also including numbers representing American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander.

Summary of the Comprehensive Community Plan:

Each year the Council creates and implements a local plan of action that addresses community needs related to substance abuse reduction. This document is the Community Comprehensive plan for 2005-2008, with annual Plan Updates to be submitted in 2006-2008.

The Council took great care in preparing a Comprehensive Community Plan that would reflect long-term needs and concerns of all parts of the community. The council collects yearly data from law enforcement agencies, the court system, Healthy Communities, and the schools (yearly data and Indiana Prevention Resource Center data every two years), as well as other agencies when available (i.e. Agency on Aging, Turning Point). Community members are welcome at monthly meetings to help assess and/or add to the data or insight. The Council compiled the information and used it to assist in the preparation of this plan, which was completed with assistance from the Community Consultant assigned by the Commission for a Drug-Free Indiana. The plan was then reviewed, revised, and approved by the Local Coordinating Council.

The LCC identified three main problem areas to be addressed in the coming years. They are

1. Substance use by youth and adults,
2. A full continuum of treatment services, and
3. Substance abuse impact on the justice system.

Following the approval by the State Commission, the LCC will work with community organizations to plan and implement programs that address the problems and recommended actions identified in the plan. The County Commissioners will have final approval of funding allocations from the County Drug-Free Communities Fund that support such programs. The LCC will monitor the progress of these programs throughout each year.

Membership List

County LCC Name:

Bartholomew County Substance Abuse Council

Name	Organization	Race	Gender	Category
Boll, Chuck	City of Columbus	Caucasian	Male	Government
Fisher, Dana	Turning Point	Caucasian	Female	Support Services
Frederick, Jay	Columbus Police Department	Caucasian	Male	Law Enforcement

Sidwell, Nallie	College Student	Caucasian	Female	Education
Thayer, Stephanie	Foundation for Youth - Teen Court	Caucasian	Female	Youth Development

Problem Identification

Problem Statement #1:

Youth and adults in the county abuse substances including alcohol, tobacco and other drugs.

Supportive Data:

- In 2004, 56% of all new adult probation cases were drug and/or alcohol offenses.
- In 2004, 19% (182 of 961) of all juvenile delinquency referrals were for drug or alcohol offenses. Of these referrals, 60% (110 of 182) were referral for Illegal Consumption of Alcohol.
- In 2004, 35% of all urine drug screens given by Bartholomew County Court Services were positive for drugs or alcohol. Summarily:
 - 9% positive for amphetamines
 - 6% positive for cocaine
 - 20% positive for cannabinoids (marijuana)
 - 6% positive for opiates(Total equals more than 35% because of results positive for more than one substance.)
- 2003 Indiana Prevention Resource Center Survey results for Bartholomew County indicated that monthly substance use among high school seniors occurs at the following rates:
 - 26.3% use tobacco monthly
 - 40.9% use alcohol monthly
 - 25.1% binge drink monthly
 - 16.7% use marijuana monthly
- 2004 Indiana Prevention Resource Center Survey results indicated that monthly substance use among high school seniors occurs at the following rates:
 - 27% use cigarettes monthly
 - 8% use smokeless tobacco monthly
 - 42% use alcohol monthly
 - 17% use marijuana monthly
- 2004 Indiana Prevention Resource Center Survey results indicated that 5% 8th graders use inhalants monthly.
- More than 60% of victims of domestic violence cope with abuse through self-medication or use of drugs and alcohol.

Year 1 Update:

- In 2005, 37.2% of all local arrests were drug and/or alcohol offenses.
 - 24.9% alcohol-related (958 of 3850)
 - 12.4% drug-related (476 of 3850)
- In 2005, 19.2% (213 of 1112) of all juvenile delinquency referrals were for drug or alcohol offenses. Of these referrals, 55% (117 of 213) were referrals for Illegal Consumption of Alcohol.
- In 2005 , at least 21% of the referrals made to Teen Court were alcohol or drug related.
- During FY 2005, the Columbus Housing Authority realized the following incidents as related to drug use/issues:
 - 13 lost Section 8 hours
 - 3 clients lost public housing
 - 8 were denied housing because of drug convictions
- In 2005, 38% of all urine drug screens given by Bartholomew County Court Services were positive for drugs or alcohol. Summarily:
 - 8.8% positive for amphetamines
 - 7.2% positive for cocaine
 - 19.1% positive for cannabinoids (marijuana)
 - 7.5% positive for opiates(Total equals more than 38% because of results positive for more than one substance.)
- 2003 Indiana Prevention Resource Center (IPRC) Survey results for Bartholomew County indicated that monthly substance abuse for high school seniors occurs at the following rates:
 - 26.3% use tobacco monthly
 - 40.9% use alcohol monthly
 - 25.1% binge drink monthly
 - 20% use marijuana monthly
- 2005 Indiana Prevention Resource Center (IPRC) Survey results for Bartholomew County indicated that monthly substance abuse for high school seniors occurs at the following rates:
 - 23.9% use tobacco monthly
 - 40.6% use alcohol monthly
 - 25.8% binge drink monthly
 - 20% use marijuana monthly
- 2005 Indiana Prevention Resource Center (IPRC) Survey results for Bartholomew County indicated 8th graders monthly inhalant use to be :
 - 2.5% Bartholomew County
 - 4.3% Indiana

- 2005 Community Methamphetamine Data
 - 76 methamphetamine labs (3rd highest in State of Indiana)
 - 8.8% of all urine druge screens given by Bartholomew County Court Services were positive for methamphetamine.
 - In 2005, 102 total methamphetamine cases were file in Circuit Court and Superior Court I.
- 2005 Indiana Prevention Resource Center (IPRC) Survey results for Bartholomew County indicated that high school seniors' lifetime usage of the following substance to be:
 - 73.6% alcohol (72.3% state)
 - 44.2% tobacco (51.9% state)
 - 37.6% marijuana (40.1% state)
 - 16.4% tranquilizers (15.5% state)
 - 15.2% amphetamines (12.5% state)
 - 12.4% cocaine (8.8% state)
 - 8.8% MDMA (5.9% state)
 - 8.5% LSD (5.5% state)
 - 6.4% crack (3.9% state)
 - 5.8% methamphetamine (5.5% state)
 - 3.9% heroin (2.0% state)
- Between 50% and 90% of women reporting substance abuse or alcohol misuse have experienced abuse either in childhood or adult. (Women's aid publication)
- Alcohol or drug abuse does not cause domestic violation, but being under the influence of alcohol or substance abuse does intensify existing violent behavior. (The Office of Victim of Crime publication)
- Bartholomew County School Corporation realized 102 ATOD incidents during the 2004-2005 school year.

Year 2 Update:

-
-
-

Final Update:

-
-
-

Objectives:

- Support and expand prevention/education programs provided through the schools and other community organizations, with an emphasis on proven prevention strategies.
- Provide healthy alternative activities for children and youth, especially after school and during summer break.
- Increase general public awareness of local issues related to substance abuse reduction efforts and programs.
- Support mentoring programs and organizations operating in Bartholomew County.
- Support tobacco education/prevention and cessation programs for youth and adults.
- Participate in State and National education/awareness campaigns such as Treatment Works!, the Great American Smoke Out, Red Ribbon Week, Etc.

Year 1 Update:

- Support counseling efforts for at-risk youth and adults.
- Provide financial assistance for law enforcement efforts to reduce alcohol and substance abuse.
- Increase general public awareness of local issues related to substance abuse reduction efforts and programs.
- Support mentoring program and organizations operating in Bartholomew County.
- Support cessation/education/prevention programs for youth and adults.
- Participate in local, state and national education/awareness campaigns such as Red Ribbon Week, the Great American Smokeout and Operation Safe Prom.

Year 2 Update:

-
-
-

Final Update:

-
-
-

Goals:

- Substance Abuse Council members will provide or assist with 20 or more ATOD community presentations.
- Reduce the number of county methamphetamines labs.
- During the 2005-2006 school year, reduce number of Bartholomew County School Corporation ATOD incidents.
- Provide counseling opportunities to 80 or more youth and adults through subsidy funding provided by the Drug-Free Community Fund.

Year 1 Annual Benchmarks:

- Officers within Bartholomew County Sheriff's Department and Columbus Police Department made more than 20 community presentations primarily surrounding methamphetamine. Groups such as Kiwanis, county employees and Extension Homemakers were presented to.
- In summer 2005, a community forum on meth was held. Panel members included law enforcement, treatment providers, legislators, judiciary and current offenders preseted.
- In May 2005, the annual Operation Safe Prom was conducted.
- In 2005, a local website was established to educate the public about meth.
<http://www.ciamethwatch.com/index.html>
- Between 2003 and 2005, monthly use of tobacco dropped 3% among high school seniors.
- In 2003 and 2005, monthly alcohol usage among high school seniors remained steady at 40%, well below the 50+% seen in previous years.
- Between 2003 and 2005, monthly inhalant usage among 8th graders dropped from 5% to 2.5%.

Year 2 Annual Benchmarks:

-
-
-

Final Report:

-
-
-

Problem Statement #2:

Individuals and families facing issues associated with addiction do not have a full range of affordable, accessible intervention, treatment and aftercare resources and programs available.

Supportive Data:

- Additional support groups for teens and families are needed in Bartholomew County.
- Adequate inpatient addiction treatment or aftercare services are unavailable in Bartholomew County.
- Individuals without insurance or financial resources are limited in their ability to access substance abuse services.

Year 1 Update:

- Additional support groups for teens and families are needed in Bartholomew County.
- Adequate inpatient addiction treatment or aftercare services are unavailable in Bartholomew County.
- One service provider (Behavioral Healthcare) discontinued its adult intensive outpatient program.
- Individuals without insurance or financial resources are limited in their ability to access substance abuse services.
- No federal programs target funds for substance abuse programs for the homeless
- Barriers to accessing existing services exist. These include:
 - Transportation - Although Columbus has public bus service, no public rural transportation exists.
 - Lack of documentation
 - Lack of support services
 - Scheduling difficulties
 - Treatment program requirements
 - Ineffective treatment methods
 - Abstinence-only programs
- Research consistently finds that involvement in substance abuse treatment reduces recidivism for offenders who use drugs. Aftercare services are the critical component to decreasing future criminal behavior (one study found a 64% decrease in criminal act for those that were in an aftercare program after jail).

- In 2005, Community Church of Columbus provided free substance abuse related individual counseling to 26 individuals, 22 of which had not insurance coverage for substance abuse counseling/treatment.

Year 2 Update:

-
-
-

Final Update:

-
-
-

Objectives:

- Support the development of self-help support groups for teens and adults in the county.
- Work with the Community Mental Health Center to develop a family intervention program and market it through local agencies and institutions.
- Provide treatment subsidies for citizens needing financial support to receive treatment for addictions.
- Advocate for the development of halfway houses for men and women in the County.
- Provide supportive services for spouses and children of people seeking treatment for addictions.
- Advocate for additional funding from the State and Federal governments for addiction treatment.

Year 1 Update:

- Address the needs of the homeless by collaborating with the Bartholomew County Homeless Coalition.
- Provide training and support to local agencies serving low-income families.
- Support workplace training/workshops for employers providing treatment through EAPs.
- Support development of AA/Al-Anon groups specific to teens.
- Address barriers to treatment specifically for the homeless.

- Advocate for additional funding from State and federal government for addiction treatment.
- Support the need for a community comprehensive treatment center.
- Support drug court efforts including visiting other existing programs.
- Coordinate a community education fair for substance abuser resources and services available to citizens for Bartholomew County.

Year 2 Update:

-
-
-

Final Update:

-
-
-

Goals:

- Implement of an evidence-based drug court.
- Increase funding available to local substance abuse treatment/support services providers.
- Increase community awareness of substance abuse treatment/resources available.
- Address barriers to obtaining treatment through various efforts including the Bartholomew County Homeless Coalition.

Year 1 Annual Benchmarks:

- During 2005 , the Judge of Superior Court II began steps to implementing a drug court.
- In 2005, Family Self-Sufficiency was able to subsidize needed substance abuse services to 19 individuals who received approximately \$158 of services over the average of 6 counseling sessions.
- Community efforts have begun to implement a rural transit sytem.
- Community Church of Columbus provide Celebrate Recovery as well as other support services free of charge to the community.

- 50 youth were assisted with counseling service through the Youth Care Fund managed by the Bartholomew County School Corporation and funded through the Drug-Free Community Fund.
- Quinco (LMHC) received funding to provide EAP services to youth. Over 20 have been served.

Year 2 Annual Benchmarks:

-
-
-

Final Report:

-
-
-

Problem Statement #3:

Law enforcement and justice programs in the county are overwhelmed with the demands on the system created by substance abusing offenders.

Supportive Data:

- The Bartholomew County jail routinely operates over capacity. It is estimated that 75-80% of those incarcerated has drug/alcohol related issues contributing to their legal difficulties.
- In 2004, Bartholomew County Sheriff's Department was involved in approximately 370 drug or alcohol cases.
- In 2004, Columbus Police Department made approximately 175 drug (excluding marijuana and alcohol) arrests, a 1000% increase over the 16 arrests made in 2000.
- Bartholomew County Court Services received 1062 new adult probation cases/clients in 2004. The majority of these cases were a result of drug and/or alcohol offenses.

Year 1 Update:

- In 2005, Columbus Police Department made approximately 220 drug (excluding marijuana and alcohol) arrests.
- In 2005, Bartholomew County Sheriff's Department was involved in approximately 375 drug or alcohol cases.
- In 2005, 37.2% of all local arrests were made for either drugs and/or alcohol.
- Bartholomew County Court Services received 1174 new adult probation cases/clients in 2005. Once again, a majority of these cases were a result of drug and/or alcohol offense or exhibited alcohol/drug issues after starting probation.
- In 2005, 102 methamphetamine cases were filed in Circuit Court and Superior Court I compared to 63 cases filed in 2004.
- The 102 methamphetamine cases filed in 2005 represent one third of the 305 cases filed in these courts since 1998.
- Currently, methamphetamine offenses constitute 7-10% of new bookings into the Bartholomew County Jail.
- In 2005, 76 methamphetamine labs were discovered by county law enforcement compared to 52 in 2004. As a result, in 2005, Bartholomew County ranked third in the State for methamphetamine labs.

- In 2005, 38% of all urine drug screens given by Bartholomew County Court Services were positive for drugs or alcohol. Summarily:
 - 8.8% positive for amphetamines
 - 7.2% positive for cocaine
 - 19.1% positive for cannabinoids (marijuana)
 - 7.5% positive for opiates

(Total equals more than 38% because of results positive for more than one substance.)

Year 2 Update:

-
-
-

Final Update:

-
-
-

Objectives:

- Advocate for additional training for officers and justice personnel related to substance abuse issues and resources.
- Support the implementation and continuation of evidence based substance abuse programs for both juvenile and adult offenders.
- Encourage proven prevention programs/strategies be used.
- Provide assessment services, drug testing and treatment for offender populations.
- Continue to require treatment as a condition of community-based supervision such as home detention, day reporting, probation and pretrial supervision as appropriate with substance abusing offenders.
- Provide appropriate equipment and materials for local police and justice agencies for programs/services related to substance abuse reduction.

Year 1 Update:

- Advocacy for additional training for officers and justice personnel related to substance abuse issues and resources.
- Support the implementation and continuations of evidence based substance abuse programs for both juvenile and adult offenders.
- Provide assessment services, drug testing and treatment for offender populations.

- Assess service gaps and implement needed programming.

Year 2 Update:

-
-
-

Final Update:

-
-
-

Goals:

- Reduce by 2% the annual number of alcohol and drug arrests/cases in which Columbus Police Department and Bartholomew County Sheriff's Department are involved.
- Reduce by 3% the number of new arrests for alcohol and drug offenses.
- Realize a 2% decrease in positive urine drug screens given by Court Services.

Year 1 Annual Benchmarks:

- From 2004 until 2005, Columbus Police Department realized a 25% increase in the number of drug (not including marijuana) arrests.
- Between 2004 and 2005, Bartholomew County realized a 46% increase in the number of methamphetamine labs located.
- In 2005, Bartholomew County Court Services experienced only a 10% increase in new clients received when compared to 2004.
- What Works efforts, initiated in 2000, continues to thrive in the county. A committee structure that involves the judiciary, probation officers, Community Corrections officers, support staff, the local mental health agency, defense bar, law enforcement, youth detention services and juvenile residential servicesive continues to look at offender assessment and evidence-based programming for offenders.
- In 2005, Bartholomew County Courts/Court Services underwent an assessment conducted by the University of Cincinnati (Correctional Program Assessment Inventory) for which the county received passing marks. The process assessed the current programs, which deliver programs based on evidence-based principles.
- Community substance abuse treatment options continue evolve to meet offender needs and now include traditional intensive outpatient treatment, cognitive

behavioral treatment and PRIME for life for both English and Spanish-only speaking clientele.

- Court Services' officers were trained in the administration and scoring of the SASSI, a substance use assessment tool, for both juvenile and adult offenders.

Year 2 Annual Benchmarks:

-
-
-

In the fall of each year, the Substance Abuse Council publicly announces the availability of grant monies. By the end of the year, the Council reviews written grant requests and conducts in-person interviews of potential grantees. Through a voting process, the Council develops a list of recommended grant recipients and grant amounts. By the end of January, this list is submitted to the County Commissioners for approval and the County Council for appropriation of the funds. Afterward, the Substance Abuse Council advises the grant recipients of their award and provides instructions on accessing these monies that must be expended by the end of the calendar year.
